

D.A.V. PUBLIC SCHOOL, CRRC, Medical Road, Gaya

Sunday Test (Date – 03.12.2023)

Class –VIII
Sub. –Science

Time : 40 Min
F.M. - 20

Section - A ($2 \times 5 = 10$)

1. Answer following questions :

- Define asexual reproduction .
- What are hermaphrodite animals ? Give an example of such animal.
- Write the function of each of the following parts of the human reproductive system
(i) ovaries (ii) uterus
- How will you differentiate between a zygote and an embryo ?
- How is fertilization in a hen different from fertilization in a frog?

Section - B ($5 \times 2 = 10$)

2. Answer the following questions:

- Where does fertilization occur in human beings ? How does the zygote formed eventually develop into an infant?
- Define the term metamorphosis. List the changes that a tadpole undergoes to develop into a frog and also show this with the help of a well labelled diagram .
